

McFarland Pump Group

The "High Pressure" Specialists! Since 1893

- Original equipment manufacturer (OEM) that has a recognized name in the oil and gas market
- Internationally recognized group of companies that produce a wide variety of high pressure pumps for all uses and applications.
- Positive displacement reciprocating plunger pumps
- Rotary lobe pumps.
- Centrifugal pumps for chemical injection, metering, hydrostatic pressure testing, high pressure water jetting applications, fluid transfer and pumping.

McFarland Pumps

High Pressure Metering Pump,
Air/Gas/ Hydraulic Operated

API 674/675

Series MAC 14, 24, 26, 28
Max. Flow 30 GPM, (114 ltr/min)

Max. Pressure 80,640 psi (5,516 bar)
Driver Air/Gas

Series MAC-GP 26, 28
Max. Flow 2 GPM, (7.6l ltr/min)

Max. Pressure 25,000 psi (1,724 bar)
Driver Hydraulic

Series MAC P10, P15
Flow 19.28 GPM, (73 ltr/min)

Max. Pressure 30,000 psi (2,068 bar)
Driver Electric/ Diesel

Series MAC P38, P48, P68
Flow 142.67 GPM, (540 ltr/min)

Max. Pressure 40,000 psi (27,588 bar)
Driver Electric/ Diesel

Tritan Pumps

High Pressure , Motor/ Diesel Operated
Reciprocating- Multi Plunger Pump

API 674

Series SX 3085,3150,3140,5200,5225
Flow 72 GPM, (16.3m³/hr)

Max. Pressure 40,000 psi (2,758 bar)
Driver Electric/ Diesel

Series AB/DI/SS 3085,3150,3140,5200,5225
Flow 344 GPM, (78m³/hr)

Max. Pressure 5,500 psi (379 bar)
Driver Electric/ Diesel

Address: 921 Seaco Court, Deer Park, Texas 77536, USA

Phone : 1(713)864-3366 Fax : 1(713)864-3252

Email: sales@mcfarlandpump.com, www.mcfarlandpumpgroup.com

100% Made in USA

Pump Packages

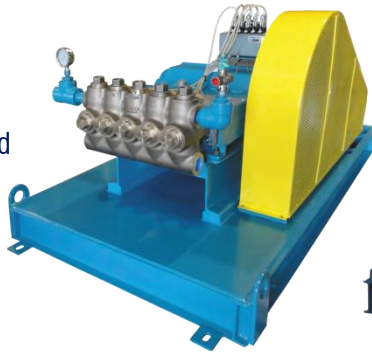

Triplex & Quintuplex Pumps
High Pressure

API 674/675

Chemical Injection Units Hydrostatic Testing Units

McFarland- Tritan Pumps

- Internationally recognized, dependable, and trusted manufacturer of high pressure plunger pumps for both industrial and oil & gas applications.
- Extremely durable with low maintenance cost
- Specialized in providing pump packages for your need

STONEBOR Pumps

Precise Volume, High Pressure
Chemical Injection Pump

API 675

Series CP (3,6,7,9,10,19)

Max. Flow 1,058 GPD, (2.78 ltr/min)

Max. Pressure 20,000 psi (1,379 bar)

Driver Air/Gas

Series A,B, C8-E

Max. Flow 1800 GPD, (4.7 ltr/min)

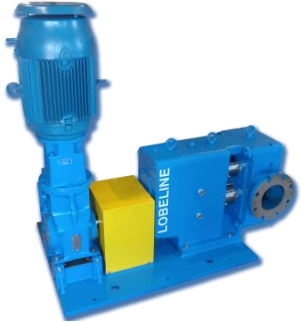

Max. Pressure 5,000 psi (345 bar)

Driver Electric

LOBELINE Pumps

Rotary Lobe Positive Pump
Multi Phase Applications

API 676

Series MR, AR, M, A

Flow 2,300 GPM, (524 m³/hr)

Max. Pressure 40,000 psi (27,588 bar)

Driver Electric

SWABY Pumps

Vertical Suspended /
Submersible Centrifugal Pump

API 610

Series 1910 XA,5200X,5500,5100,5400

Flow 2,400 GPM, (545m³/hr)

Max. Pressure 200 ft (60 m)

Driver Electric/ Diesel
